# iXWARE CLOUD SCANNING APPS
## SOLUTON OVERVIEW

**OUR CLOUD SCANNING PRODUCTIVITY APPS**

✉ Email    📑 SharePoint    🔺 Google Drive

📁 FTP    ☁ OneDrive    ▣ Dropbox

## iXware Cloud Scanning

iXware Cloud Scanning is a smart, global, online service which lets you scan documents to online repositories in different file formats. It offers single sign-on (SSO) for easy browsing through, and scanning to, personal and corporate folders of a broad variety of cloud repositories. No system administration, maintenance or need to upgrade, ever.

Make the multifunctional device part of your daily document workflows. By adding iXware's cloud solutions you make sure documents are stored in the right location immediately. This prevents loss of documents, adds structure to unstructured data and makes your document flows more secure.

All iXware Cloud Scanning apps offer a variety of useful features to make digitization of documents even easier.

**iXware is continuously investing in adding new apps and features to it's offering. For the latest updates contact sales@ixware.com.**
